...Exceptional Performance

Motion Detectors

All our detectors have been expertly designed to detect the movement of intruders whilst avoiding unwanted false alarms.

Door & Window Contact Detectors

These monitor the opening of doors, windows, cupboards, drawers etc. Visible or hidden/covert versions are available in 3 different colours.

Internal Sounders, Voice Annunciators & Loudspeakers

Internal Sounder features 5 programmable high level alarm sounds, a long life strobe, multi-coloured LED indication status and low-level notification tones (for example entry/exit, chime, warning etc) Available in both wired and wireless versions.

Ceiling Mount Detectors

Outstanding detection in a sleek and easy to install housing. The Orisec 360 detectors achieve the ultimate balance between detection performance and false alarm immunity.

Shock Detectors

Shock detectors monitor windows and doors for vibrations caused by attempted break-ins and will activate an alarm before an intruder gains entry to your property. Visible or hidden/covert versions are available in 3 different colours.

Fire & Flood Detectors

Each model in the Fire & Flood detector range can operate as a stand-alone detector with an integrated sounder. They can also be interlinked so that all detectors will sound in the event of a fire. Furthermore, the detectors can be integrated with all Orisec wireless devices so that activations can be reported via the control panel to a monitoring station or to our mobile phone apps.

Internal Detectors
Cover every angle

W-ROX-1

The W-ROX-1 Wireless Relay Output Expander features a 1A/24V relay to operate equipment remotely from any Orisec control panel. Examples include CCTV, garage doors, sprinklers, outdoor lighting, outdoor sirens and electric gates.

Accelerometer

Designed to protect your most valuable possessions, the W-ACC-C is discreet enough to be concealed in or on almost any item and signals an alarm when the object is moved.

Ideal applications include valuable paintings, jewellery boxes, fine art, drawers, cupboard doors, safes etc.

ControlPlus App

The ControlPlus app gives users complete visibility of their system from anywhere.

Alarm Notifications
Break-in, fire, flood etc

Family Care
Reassurance that young or elderly relatives are safe & well

Set & Unset
your system remotely

Remotely Control
Garage doors, gates, CCTV, lights etc

Apps

Advanced and easy to use.

External Sounder

This acts as a highly visible deterrent to inform potential intruders that your property is protected. It emits a 115-decibel alarm siren if your alarm system is triggered.

Illuminated Sounder
For an even greater security deterrent, illuminated versions are available to increase visibility during darkness.

External Detectors

Designed for CCTV, Lighting and Intruder Alarm applications. With over 20 variants to choose from, including wired and wireless, there is an external detector for every installation.

External Detection
First line of defence
